

Priya Das

priyadascareer@gmail.com | +91-8474826024 | linkedin.com/in/priya-das99 | github.com/priya-das99 | Place:Assam

Software Engineer with a strong foundation in Python, SQL, and backend development, and hands-on experience in AI/ML projects, conversational AI workflows, and cloud platforms like Azure and AWS S3

Skills and Technologies

Programming Languages: C++, Python, SQL
Backend Development: FastAPI, Flask, REST APIs, API Development
AI/ML GenAI: OpenAI Agents SDK, LLM APIs, Agentic AI, Prompt Engineering, Tool Calling, Multi-Agent Workflows, Structured Outputs, Context Management
Databases: MySQL, Appwrite
Cloud Computing: Microsoft Azure
Tools: Git, GitHub, VS Code, Jupyter Notebook
AI Tools: Cursor, Claude Code, Kiro, Gemini, OpenAI
ML Python Libraries: Scikit-Learn, Rake, Skip-gram, Matplotlib, Pandas, Numpy.
Working Environment: Linux, Windows

Work Experience

Vantage Circle (Backend Developer Intern) Jan 2026 – Present

- Developing an conversational Ai assistant for an fitness product using the **OpenAI Agents SDK**, designing multi-agent workflows for personalized coaching, mood tracking, and activity management .
- Implementing a **Redis** caching layer to **optimize LLM API performance** designing cache key strategies and fallback mechanisms to reduce latency and costs.
- Building a **FastAPI** backend with **SQLAlchemy** ORM for an AI fitness coach; integrating **OpenAI** LLM and session memory to generate context-aware, personalized responses.

E-Yantra Feb 2022 – Jul 2023

- Designed and implemented Disaster Recovery (DR)** strategies on Azure, leveraging Azure Backup policies for data recovery and ensuring business continuity.
- Configured, deployed, and troubleshot Azure Virtual Machines**, Storage, Active Directory, and SQL Managed Instances, improving system performance and security compliance.
- Managed and optimized AWS** infrastructure, including provisioning, monitoring, and cost optimization of EC2, S3 resources, enhancing system reliability.

Projects

Campaign Decision Assistant *OpenAI Agent SDK, FastAPI, Pydantic, aiosqlite, pytest* [GitLink](#) July 2026

- Built an AI-powered decision-support system using **OpenAI Agent SDK** and **FastAPI** to analyze marketing campaigns against multi-source data, including performance metrics, compliance rules, customer reviews, and historical campaigns; implemented deterministic conflict detection and mandatory human-review workflows for evidence-based, auditable recommendations.
- Developed a validation and tool-orchestration system with schema validation, **context-aware filtering**, 6 data-retrieval tools, **low-temperature LLM generation**, request-hash-based duplicate detection, and asynchronous status updates, achieving an estimated **\$0.005–\$0.01** cost per analysis.
- Implemented an asynchronous backend using **FastAPI**, **aiosqlite**, and OpenAI SDK to handle concurrent requests, sessions, message history, and state validation; added strict **Pydantic JSON validation**, error handling, and failure-mode testing.

Academic Projects

Diversified News Recommendation *Python, Flask, RAKE, Skip-gram, FAISS, HTML, CSS* [Gitlink](#) Aug 2024 - Dec 2024

- Developed a **hybrid recommendation system combining collaborative filtering** and content-based approaches to address cold-start and filter bubble challenges.
- Applied NLP techniques including **RAKE** keyword extraction and **Skip-gram** embeddings to improve semantic understanding of news articles. performance metrics: **Precision** 74%, **Recall** 88%, **F1 Score** 72%, **NDCG** 34%, and **MRR** 19%, outperforming individual models in relevance and diversity.
- Implemented the end-to-end pipeline using **Python, Flask, HTML**, and **CSS** following software engineering best practices.

Education

Master of Computer Applications,, Tezpur University | CGPA: 7.90 2023 – 2025
Bachelor of Computer Applications, Gauhati university | CGPA: 6.95 2017 - 2020

Additional Courses and Certifications:

Certifications:

- The Joy of Computing using Python(NPTEL)
- Cisco Certified Network Associate(ToolRoom and Training Center under MSME)
